

Table of Contents

- [1100.00 TRIANGULAR GEODESICS TRANSFORMATIONAL PROJECTION](#)
- [1101.00 Triangular Geodesics Transformational Projection Model](#)
 - [1101.01 Description](#)
 - [1102.00 Construction of the Model](#)
 - [1103.00 Flexing of Steel Straps](#)
 - [1104.00 Constant Zenith of Flat and Spherical Triangles](#)
 - [1105.00 Minima Transformation](#)
 - [1106.00 Inside-Outing of Tetrahedron in Transformational Projection Model](#)
 - [1106.10 Complementary Negative Tetrahedron](#)
 - [1106.20 Inside-Outing](#)
 - [1106.30 Inside-Outing of Spheres](#)
 - [1107.00 Transformational Projection Model with Rubber-Band Grid](#)
 - [1107.10 Construction](#)
 - [1107.20 Transformation: Aggregation of Additional Rods](#)
 - [1107.30 Persistence of Perpendicularity](#)
 - [1107.40 Three-Way Crossings: Zigzags](#)
- [1110.00 Zenith Constancy of Radial Coordination](#)
- [1120.00 Wrapability](#)
- [1130.00 Omnidirectional Typewriter](#)
 - [1130.10 Model Studies](#)
 - [1130.20 Orbital Feedback Circuitry vs Critical Path](#)
 - [1131.00 Spool-wrapping of Tetrahedron](#)

- [1131.10 Omnitriangulated Strip](#)
- [1132.00 Great-circle Shunting and Switch Points](#)
- [1132.10 Great-circle Railroad Tracks of Energy](#)
- [1133.00 Information Control System of Universe](#)
